Mr. Britt Beaver

Attendee REVIEWS

"I have always found Mr. Beaver to be a straight shooter with a common sense approach to education that reminds me of how school was for me when I grew up. Relationships and good decisions first, and the learning will follow. I'm not sure if it is his background in administration or guidance counseling or law enforcement or coaching that matters most, but I do know the combination of these gives him insights that many others do not have."
